

# CREATIVE SCHOOL MANIFESTO

- ❶ **Value** each and every pupil and their individual personalities, unique abilities, qualities and expectations.
- ❷ **Acknowledge feelings** – recognise, accept and reflect on them.
- ❸ Ask rather than tell and don't just celebrate correct answers - **invite, encourage and value questions.**
- ❹ **Free the curious mind** – let ideas fly around to enrich the imagination.
- ❺ Think outside the borders of the classroom, school, and the textbook – **create new spaces for inspiration.**
- ❻ **Teach and learn with the whole body.** Be active and explore through the bodies senses - see, hear, smell, touch and taste.
- ❼ Be brave to try – celebrate effort and take time to reflect on what has been learnt - even when things don't go as planned.
- ❽ Practice the art of being and **changing together.**
